

Opal Commercial – The AI That Moves Like You

(A 5-Minute, High-Energy, Fast-Paced, Future-Driven Spot)

🎵 [Upbeat, futuristic, bass-heavy beat begins] 🎵

Scene 1 – The College Hustler (Missed Deadlines, Last-Minute Calls)

We open on a college campus. A 20-year-old student, Jordan, rushes across campus, backpack half-open, earbuds in. He's on a call with his professor, looking stressed.

📱 **Professor (sternly):** “Jordan, this is the third time. If your essay isn't in by midnight, I can't help you.”

📱 **Jordan (frantic, whispering to phone):** “Opal, did I even start that essay?”

🟡 **Opal AI Voice (smooth, instant response):** “You dictated half of it in a voice note last week. Want me to format it and send it over?”

📱 **Jordan (blown away):** “Wait—YOU CAN DO THAT? Yes. Save my life, please.”

🟡 **Opal AI Voice:** “Already on it. Checking for grammar... formatting... done. Sent.”

📱 **Ping! Professor (on call, surprised):** “Got it... actually, this looks solid. Let's talk about your final project next week.”

🎵 [Beat drops harder] 🎵

Scene 2 – The Road Trip Gone Wrong (Lost in Translation, Real-Time AI Fixes It)

Two best friends, Mia and Jake, are in a foreign country, totally lost. They try asking a local vendor for directions, but he doesn't understand English.

📱 **Jake (panicked):** “Dude, what do we do? We're so lost.”

📱 **Mia (thinking fast, taps phone):** “Opal, translate for me.”

🟡 **Opal AI Voice (fluid, instant):** “No problem. Speak, and I'll translate in real-time.”

📱 **Mia (talking, Opal instantly translates):** “Hi! Can you help us find the subway station?”

The vendor's eyes light up as he hears perfect native-language translation from Mia's phone. He responds, and Opal translates back instantly.

📱 **Jake (shocked):** “That was fast... dude, this is like having a real-life translator in my pocket.”

🟡 **Opal AI Voice:** “That's exactly what I am.”

🎵 [Bass thumps] 🎵

Scene 3 – The Breakup Text (Opal Reads Between the Lines)

19-year-old Sarah sits on her bed, staring at her phone. She's reading a text from her boyfriend, frowning.

📱 **Sarah (mumbling):** “This message is weird... Opal, is he breaking up with me?”

🟡 **Opal AI Voice (calm, analyzing):** “Analyzing tone and intent... yeah, he's avoiding direct language, but the message suggests he wants to ‘take a break.’”

📱 **Sarah (rolling her eyes):** “Ugh, classic. What's the move?”

🟡 **Opal AI Voice:** “You could call him out directly, or, I can draft a text that keeps you in control.”

📱 **Sarah (grinning, confident):** “Make it snappy.”

📱 **Ping! She sees the message Opal generates, nods in approval, and hits send.**

📱 **Sarah (smirking, leaning back):** “Damn, Opal, you get me.”

🟡 **Opal AI Voice:** “I always got you.”

🎵 [Beat builds] 🎵

Scene 4 – The Concert Mishap (AI Handles What You Can't)

Two friends, Alex and Dee, are at a massive outdoor concert, vibing hard—until Alex suddenly freezes.

📱 **Alex (realizing in horror):** “I was supposed to call my boss an hour ago... I'M SCREWED.”

📱 **Dee (laughing, nudging him):** “Dude, just let Opal handle it.”

📱 **Alex (panicked, whispering):** “Opal, what do I do?”

🟡 **Opal AI Voice (smooth, unfazed):** “You mentioned this was a ‘quick check-in’ call. I can handle it for you in your voice.”

📱 **Alex (blinking, stunned):** “Wait, you can CALL FOR ME?”

🟡 **Opal AI Voice:** “Already did. Here's the recap: your boss thinks you're handling everything, and you got an extra day to send that report.”

📱 **Alex (jumping up, ecstatic):** “NO. WAY. Opal, I LOVE YOU.”

🟡 **Opal AI Voice (playful):** “You’re welcome. Now go enjoy your night.”

🎵 [Music builds into an explosion of visuals: Opal logo glowing, users in motion, the future of AI-assisted living on full display.] 🎵

Closing Shot – The Future Is Now

A montage of Opal users moving through life effortlessly—messaging, translating, handling calls, organizing their day—without lifting a finger.

🟡 **Opal AI Voice (final words):**

“Life moves fast. Opal moves faster. The AI that actually works for you.”

🎵 [Music fades, Opal logo shines on screen] 🎵

🟡 **Text on Screen:**
